

## LIFTMAX LM 81 - Especificaciones técnicas

### Description

LIFTMAX LM 81 se ha diseñado y fabricado específicamente para carretillas elevadoras pesadas y tractores de terminal. Su dibujo agresivo y robusto de la banda de rodadura, junto con el exclusivo compuesto antiestático de la misma, garantizan unas excelentes propiedades de desgaste y una larga vida útil.

La fuerte carcasa All Steel y la pared lateral reforzada proporcionan la máxima estabilidad y maniobrabilidad durante el modo de elevación, junto con una tracción excelente. Además, su carcasa radial absorbe las irregularidades de la superficie para ofrecer una mayor comodidad de conducción y aumentar la confianza del operador.

LIFTMAX LM 81 cumple la normativa antiestática, y todos sus tamaños pueden dispar la carga estática del vehículo.
