

RIDEMAX FL 690 - Ficha técnica

Description

RIDEMAX FL 690 es un neumático radial de flotación y transporte, idóneo para utilizarlo con remolques y autocisternas. El neumático es idóneo para utilizarlo 75% por carretera. Para responder a la necesidad de cargas cada vez más pesadas en la agricultura moderna, BKT ha diseñado este neumático con cinturones de acero, haciéndolo más fuerte con el fin de soportar cargas muy pesadas e incrementando la productividad del agricultor. La baja resistencia al rodamiento contribuye a reducir los consumos de carburante.
