

## SKID POWER PLUS - Especificaciones técnicas

### Description

SKID POWER PLUS ha sido desarrollado para las minicargadoras (skid steer) que se utilizan en el ámbito de la construcción. Sus tacos más anchos garantizan una excelente tracción, así como óptimas propiedades de auto-limpieza. Este neumático se caracteriza por una banda de rodadura extra profunda, así como por una mayor protección de los flancos, asegurando de esta forma una excelente resistencia a los cortes y los desgarros, además de una extraordinaria duración. SKID POWER PLUS es el neumático ideal para las superficies de tierra. Su ancha área de contacto asegura una óptima estabilidad durante su empleo.
