

SNOW GRIP - Especificaciones técnicas

Description

SNOW GRIP está especialmente proyectado para las carretillas elevadoras que operan en ambientes a bajas temperaturas. El dibujo único de la banda de rodadura se caracteriza por unos bordes especiales que garantizan un agarre superior sobre la nieve fresca y compacta, asegurando además excelentes prestaciones en las curvas y en el frenado sobre superficies heladas y nevadas. La estructura de doble talón, su robusta carcasa y la particular protección de los flancos proporcionan una elevada capacidad de carga, una excelente estabilidad y maniobrabilidad en la modalidad de levantamiento, así como prolongado el ciclo de vida del neumático.

Industrial: Carretilla elevadora

Version	STANDARD
Type	TT
Tyre Size	7.50 - 16
LI/SS	131 A2

Dimensions International Standard

Ply Rating	12
Section Width (mm)	210
Overall Diameter (mm)	810
Rim Rec	6.0

Load capacity (Kg)

km/h / bar	5.0
10	1950

Rolling Circumference & SLR values are at rated Load and inflation pressure. These values may vary at different Load and pressure condition.
