

## EARTHMAX SR 53 - Spécifications techniques

### Description

EARTHMAX SR 53 est un pneu radial All Steel (Tout Acier) particulièrement conçu pour les chargeuses, les bulldozers et les tombereaux surbaissés (LPDT) qui opèrent dans des conditions difficiles dans des milieux rocheux y compris les opérations dans les mines souterraines et les chantiers de démolition. La bande de roulement profonde L-5 et le mélange particulièrement résistant aux coupures réduit considérablement l'usure et confère une traction et stabilité exceptionnelles.
