

## FL 635 - Fiche de données

### Description

FL 635 est un pneu radial Flotation adapté pour une utilisation tant sur route que dans les champs. Le dessin particulier à blocs de la bande de roulement a été conçu pour des applications de presses à balles de foin. Grâce à l'empreinte qui fournit une excellente répartition de la pression sur le terrain, le pneu FL 635 réduit nettement le compactage du sol, préservant ainsi la valeur des cultures. Le pneu assure des qualités d'autonettoyage excellentes, d'excellentes durabilité et traction ainsi que des grandes propriétés de vitesse.
