

LG 306 - Spécifications techniques

Description

LG 306 est un pneu pour pelouses et jardins, approprié pour les faucheuses. Dans certaines tailles, LG 306 convient aussi pour les micro tracteurs. Le dessin spécifique de la bande de roulement rend le pneu délicat sur le terrain, tout en facilitant le maniement et les manœuvres. LG 306 est disponible dans une version "aramid-belted", avec ceintures en aramide, pour les utilisateurs qui ont besoin d'une plus grande résistance aux perforations.
