

PORMAX PM 93 PLUS - Spécifications techniques

Description

PORMAX PM 93 PLUS a été spécialement conçu pour les chariots cavaliers dans les opérations de manutention des conteneurs dans les ports. Le pneu radial All Steel (Tout Acier) avec ceintures en acier à plusieurs couches garantit une plus grande stabilité et une meilleure durabilité. Le mélange spécial antistatique de la bande de roulement assure une bonne résistance à la chaleur et un cycle de vie plus long du pneu. PORMAX PM 93 PLUS offre une résistance réduite au roulement, ce qui permet des économies de carburant.
