

POWER TRAX HD (FL) - Spécifications techniques

Description

Le POWER TRAX HD est un pneu à carcasse diagonale de qualité supérieure, spécialement conçu pour les chariots élévateurs à fourche dans les secteurs industriels. La profondeur de la bande de roulement, l'épaisseur supplémentaire du pneu et la robustesse de la carcasse lui confèrent une durabilité exceptionnelle, ce qui réduit les risques de crevaison et de dommages accidentels. Le pneu qui présente une excellente résistance aux coupures, aux éclats et aux déchirures, est adapté aux surfaces de béton rugueuses et dures. Le protège-jante de conception spécifique assure une protection contre les crevaisons, les impacts et chocs au niveau du rebord de la jante.
