

RIB TRAILER - Spécifications techniques

Description

RIB TRAILER est un pneu bias (à structure diagonale) spécialement conçu pour les utilisations sur route et hors route avec des machines agricoles, tout particulièrement les moissonneuses-batteuses. Sa conception à 4 nervures optimise la répartition de la charge, et sa carcasse solide assure la résistance aux chaumes. RIB TRAILER a été conçu avec un composé spécial qui garantit une excellente durée de vie au pneu grâce à sa grande résistance à l'usure.
