

FLOTATION 648 - Specifiche tecniche

Description

FLOTATION 648 è particolarmente idoneo per trasporti su campo e su strada nonché applicazioni di spargitori. Alcune misure sono idonee per mietitrici/presse per balle di fieno. Il particolare disegno del battistrada consente il trasporto di carichi molto pesanti a pressioni basse, garantendo di conseguenza una compattazione ridotta del suolo e proteggendo nel contempo le colture da danni.
